[edit] Hello

I saw you added your name to the WikiProject medicine participant list. Thanks for your interest! Some topics I've been working on lately are deep vein thrombosis, malaria, and dengue fever. Do you have any articles or topics you've identified that you'd like to work on? Maybe I could help you develop some goals for editing here. Best! Biosthmors (talk) 20:02, 27 November 2012 (UTC)
